## Community Skills Survey

### Purpose:

As part of the overall labour market needs and more specifically future labour needs that will be required for the construction and mining activities generated by Greenstone Gold Mines Hardrock Project, we will be undertaking a Community Capacity Survey for the purposes of establishing a baseline for skills, training, and education of the LL#58FN members.

The scope of the skills inventory will include community members that are 16 years of age and over, including high school students. We will assemble and maintain a listing of existing individual skill sets and capacities for identified LL#58FN members.

Below are examples of future Mining Jobs that will be available at Greenstone Gold Mines:

<u>General Administration</u>	<u>Mine Operations</u>	<u>Mine Maintenance, Geology, Mill</u>
Yardman	Labourer	Fuel & Lube Technician
Loader Operator	Mine Helper	Maintenance Helper
Janitors	Mine Truck Operator	Tool crib Attendant
Security	Water Truck Operator	Sampler
	Fuel Truck Operator	Sample Preparation
		Labourer

In an effort to support the survey, we will also be utilizing the Employability Skills assessment to assist in the completing the survey. The Employability Skills are broken down into three areas, which include: 1) Fundamental skills; 2) Personal Management skills; and 3) Teamwork Skills. These skills will help you to enter, stay in and progress in the world of work—whether you work on your own or as part of a team. Examples of these skills include:

**Fundamental Skills** – These are the skills needed as a base for further development. You will be better prepared to progress in the world of work when you can communicate, manage information, use numbers and think and solve problems.

**Personal Management Skills** - The personal skills, attitudes and behaviours will drive your potential for growth. You will be able to offer yourself greater possibilities for achievement when you can: Demonstrate positive attitudes & behaviours, be responsible, be adaptable, learn continuously and work safely.

**Team work Skills** - The skills and attributes needed to contribute productively. You will be better prepared to add value to the outcomes of a task, project or team when you can: Work with others and participate in projects & tasks.
